Grown and For Sale by

N. A. HALLAUER

FAMOUS FOR ALPINES

WEBSTER, N. Y.

HARDY PERENNIAL PLANTS

The stock offered is field grown, and generally a year or more older than plants offered from seed bed or in small pots. They are also acclimated to outdoor conditions. They are of a size and age to produce a crop of flowers the first year after planting. It should be remembered however, that a few plants, such as Peonies, either do not blossom at all, or do not produce normal blossoms until the second year after planting, or until they become established in their new home.

We are always glad to welcome visitors to our gardens who are interested in Hardy Plants or Alpines. Our Farm is located at 1049 Ridge Road, Route U. S. 104. The Gardens are always open for the convenience of the public.

I want to take this opportunity to thank our many friends who have given us so much encouragement in the past, both by repeated orders and by recommending our service to their friends. By means of honest faithful effort we hope to merit a continuance of your favors.

PRICES

Unless otherwise noted, you may order 3 plants of one variety listed at 30 cents each, for 80 cents, 6 for \$1.50; 3 of the plants listed at 35 cents each for \$1.00, 6 for \$1.75; 3 of the plants listed at 40 cents each for \$1.10, 6 for \$2.00; 3 of the plants listed at 50 cents each for \$1.40, 6 for \$2.70. When a large quantity of plants is required, we suggest that you send us a list of your requirements for prices. We can often quote better prices on some items than these listed.

Orders will be filled with freshly dug plants. All orders will be sent by Parcel Post prepaid, and if 10% is added to the order to cover postage and packing, extra plants or bulbs will be included. If sales tax is later imposed, this should also be added to the order.

GUARANTEE—Owing to the nature of much of the material, the low prices at which it is sold, and the fact that we have no control over it after it leaves our hands, we cannot guarantee it to grow. We do guarantee safe arrival in good condition and will refund the price paid, or replace any stock not received in good condition, if complaint is made immediately, when plants are received.

Orders should be placed as early as possible to avoid disappointment. The supply of many items listed is limited due to war conditions and labor shortage.

In the following lists, plants especially recommended for Rock Gardens are designated by an asterisk*.

GENERAL PLANT LIST

Achillea (Yarrow)—Fine for dry places in full sun.

Ptarmica, Perrys White—Masses of small double white flowers from June on. Fine for cutting. 1½-2 ft. 40 cents each.

***Tomentosa—(Wooly Yarrow)**—Heads of bright yellow flowers from June to September. Attractive finely cut foliage. Indispensable in the Rock Garden. 40 cents each.

***Acanthophyllum Spinosum—(Syn. Dianthus Noeanus)**—Forms an attractive cushion of glaucous spiny foliage. Lacinated light pink flowers. Very fragrant. Blooms all summer. Well drained soil in sun. 6 in. 50 cents each.

Aconitum Fisheri (Monkshood) (Helmet Flower) (Wolfsbane)—Sun or shade. Attractive glossy foliage, large spikes of dark blue flowers in Sept. and Oct. 2½ ft. All Aconitum tubers are poisonous if taken internally. Excellent cut flowers. Rich soil. Light winter protection. 35 cents each.

***Aetheonema Grandiflora**—A shrubby species having blue-green foliage and rose pink flowers in June. Light soil. 10 in. 50 cents each.

***Ajuga Reptans (Bugle)**—One of the best ground covers. Bright green foliage and deep blue flowers in summer. 4 in. 30 cents each. 10 for \$2.50.

***Allium Cyaneum**—Slender upright foliage, light blue flower clusters on 8 in. stems in June. 40 cents each.

***Allium Karataviense**—Recently introduced by the Department of Agriculture. Large broad bluish-green leaves spreading near the ground, from these rises a dense head of lilac-pink flowers. One of the most attractive plants in the garden in May. 4-6 in. tall. Foliage dies down after seed ripens. Plant in fall. 50 cents each.

***Allium Moly**—Light yellow star like flowers. 15 in. A good landscape species. 40 cents each.

***Alyssum Saxatile Compactum (Rock-Madwort) (Basket of Gold) (Gold Dust)**—Golden yellow flowers in April and May. Very showy. 12 in. 35 cents each.

***Anchusa Myosotidiflora**—A dwarf variety for shady places, producing large blue forget-me-not flowers in April and May. 12 in. 50 cents each.

***Anemone Hupehensis**—A Chinese variety resembling the Japonica varieties and also requiring winter protection in cold climates. Flowers rose in abundance from August on. 12 in. 50 cents each.

Anemone Japonica (Japanese Wind Flower)—Strong growing plants blooming throughout the fall. Require some winter protection in the north. Well drained rich soil. Plant in spring only. The following are 50 cents each:

Alba—Large single waxy white.

Queen Charlotte—Large semi-double pink flowers. 2½ ft.

***Anemone Pulsatilla (Pasque Flower)**—Downy buds opening into large violet purple flowers very early in spring. A choice plant. 12 in. This variety likes a little lime. May be planted in fall. 50 cents each.

***Anemone Sylvestris (Snowdrop Windflower)**—Large pure white flowers. Fragrant. Freeblooming on nodding stems. May and June. 12 in. Some shade. 40 cents each.

Anthemis Moonlight—Large pale yellow daisies in profusion all Summer. Attractive foliage. 18 in. Any soil. 40 cents each.

Aquilegia (Columbine)—Prefer a well-drained position in light shade. In bloom continuously through spring and early summer. The long spurred varieties make excellent cut flowers.

***Canadensis**—Our native variety. Bright yellow and red flowers. 1½ ft. 35 cents each.

Chrysantha—Beautiful golden yellow long spurred flowers. 2 ft. 35 cents each.

Crimson Star—The long spurs and very large sepals are crimson, the inner petals are white. A very attractive new variety. 50 cents each.

***Flabellata Nana Alba**—A pretty plant, 8 in. high, having attractive foliage and beautiful ivory flowers. May. 40 cents each.

Long Spurred Hybrids—Mrs. Scott Elliotts—Mixed colors. The finest strain in existence. 2½ feet. 35 cents each.

- ***Arabis Albida fl. pl.**—Double white flowers in abundance over a long period in spring, well-drained soil in sun. 5 in. 50 cents each.
- ***Arabis Albida Rosabella**—Pale rose colored flowers in spring. 5 in. 50 cents each.
- ***Arenaria Montana**—Foliage deep green. An excellent plant for the rockery, with large white flowers. Well drained soil. 5 in. 40 cents each.
- Arenaria Verna Caespitosa**—Forms a thick emerald green grasslike carpet. Small white flowers in June. Sun or shade. One of the best for planting between stepping stones. 40 cents each.
- ***Armeria Lauchiana (Thrift) (Sea Pink)**—Tufts of evergreen grass-like foliage, succeeding in any soil and flowering almost continuously. Flowers rosy red on naked stems 4 to 6 in. high. Very satisfactory for border or rockery. 40 cents each.
- ***Armeria Maritima**—Grass-like evergreen foliage, pale pink flowers in May and June. 4 to 6 in. 40 cents each.
- Artemesia Silver King (Ghost Flower)**—Silver white foliage. Excellent for bouquets. 3 ft. 40 cents each.
- ***Asperula Odorata (Sweet Woodruff) (Waldmeister)**—A dwarf spreading plant, excellent for carpeting shady places. A sweet-scented herb. White flowers in clusters. May. 6 in. Prefers leaf mold soil and partial shade. 40 cents each.

ASTER — HARDY VARIETIES

- ***Alpinus**—Bright blue daisy-like flowers. Succeeds in any well drained soil in sun. May and June. 6 in. 40 cents each.
- ***Alpinus Alba**—A pure white form of the preceding. 40 cents each.
- ***Alpinus Goliath**—Taller than the preceding, 8 in. Large deep blue flowers in May and June. 40 cents each.
- Beechwood Challenger**—Deep rosy red. Very free bloomer, 3 ft. Makes a conspicuous specimen plant. 50 cents each.
- Hilda Ballard**—Lilac mauve flowers. Unusually large individual flowers, a new variety that is destined to become very popular. 4 ft. 50 cents each.
- Climax**—Medium tall lavender blue flowers in abundance, good cut flower. 3½ ft. 40 cents each.
- Red Cloud**—Clear deep rose-pink. Large semi-double flowers. New. 50 cents each.
- Nova Angliae**—Our pretty native purple Aster. 35 cents each.
- Sam Banham**—An exceedingly free white Aster. 4 ft. 40 cents each.
- Sass Pink**—An improved Harrington's Pink of recent introduction. The deep rose pink flowers completely cover the 4 ft. plant. 50 cents each.
- ***New Dwarf Varieties**—These are of easy culture, flower from August on, from 6 to 12 in. high and are desirable for the rockery.
- ***Daphne**—Clear pink, shaded lilac. 12 in. 40 cents each.
- ***Lilac Time**—Forms a 12 in. bushlet covered with soft lilac flowers in September. 40 cents each.
- ***Marjorie**—Rose pink, 9 in. 40 cents each.
- ***Niobe**—Very compact growth. Pure white. 8 in. 40 cents each.
- ***Victor**—Flowers large pale blue. Very dwarf. 6 in. 50 cents each.
- Astilbe Gertrude Brix**—An improved A. Granat. Deep crimson flowers in June, very striking. Good forcer. 2 ft. 50 cents each.
- Astilbe Gladstone**—Feathery plumes of clear white flowers, a favorite forcing variety. Rich moist soil in sun or shade. 15 in. May. 50 cents each.
- Astilbe Gloria**—Dense feathery plumes of bright pink. 15 in. 50 cents each.
- ***Astilbe Simplicifolia Rosea**—Pink flowers in branched spikes. 10 in., sun or part shade. 50 cents each.
- ***Astilbe Sinensis Pumila**—Rosy pink flowers in dense feathery spike. Sept. 8 in. 50 cents each.
- ***Aubretia Eyri (False Wall Cress)**—Flowers violet in early April and May. Dry soil, will grow in part shade. 6 in. Excellent wall plants. 40 cents each.

- Betonica Grandiflora**—(Betony)—Flowers bright rose-purple, attractive foliage. A hot dry place. 40 cents each.
- ***Callirhoe Involucrata**—(Poppy Mallow)—Prostrate trailing plants. Finely divided foliage and rather large rosy crimson flowers having white centers, a continuous bloomer. Dry soil. 40 cents each.
- ***Campanula Carpatica** (Carpathian Hairbell)—A wonderful little plant bearing clear blue cup-shaped flowers all summer and fall. 6 in. Well drained soil in sun. 40 cents each.
- ***Campanula Garganica**—A spreading tufted plant bearing light blue flowers having white eyes. June to Sept. Well drained place in sun, constant moisture. A gem for the rockery. 3 in. 50 cents each.
- Campanula Medium Calycantha** (Canterbury Bells)—Cup and saucer flowers. Blue, rose and white. 2 ft. Biennial. 30 cents each.
- ***Campanula Muralis** (Portenschlageana)—Bluish purple flowers from June to Oct. A popular wall and rockery plant. 3 in. Well drained soil in part shade. Protect in winter. 65 cents each.
- Campanula Persicifolia Grandiflora** (Peach Leaved Bells)—Bright blue flowers on tall stems excellent for cutting. 2 ft. June and July. Dry soil. 40 cents each.
- Campanula Persicifolia Grandiflora Alba**—A white form of the above. 40 cents each.
- ***Campanula Poscharskyana**—A new variety that somewhat resembles garganica, but is larger in all its parts. Blooms off and on all summer. Flowers large light blue. Same culture as Garganica. 6 in. 50 cents each.
- Cassia Marylandica**—A tall plant, 4 ft. Fern-like leaves and yellow pea flowers with dark anthers. July to September. 40 cents each.
- Centaurea Dealbata** (Knapweed)—Large deep pink flowers in June and July. 1½ ft. Ordinary soil. 40 cents each.
- Centaurea Macrocephala**—Large showy yellow thistle-like flowers on long stems. July and August. 3 ft. 40 cents each.
- Centaurea Montana** (Perennial Cornflower) (Bachelors Button)—Large blue cornflower-like flowers. June to September. 2 ft. 35 cents each.
- ***Cerastium Tomentosum**—(Snow in Summer)—A low spreading plant with silvery foliage. Rather large white flowers in spring. A popular ground cover. 30 cents each. \$20.00 per 100.
- Chrysanthemum Maximum, Shasta Daisy Alaska**—Large white flowers in June and July. Excellent for cutting. 2 ft. 30 cents each.
- Chrysanthemum Maximum—Shasta Daisy Esther Reed**—Perhaps the most outstanding of the new hybrids. Individual pure white double flowers sometimes measure 4 in. in diameter on 15 in. stems. It blossoms continuously from summer to fall. 50 cents each.

CHRYSANTHEMUMS — HARDY GARDEN

The following are representative varieties, selected for good colors and early bloom. Spring planting is advisable for best results. Field clumps, unless noted. 40 cents each.

- Alabaster**—A new English variety. The finest white variety we have seen. Flowers ivory white, huge, incurved on good stems. Extra large when disbudded. Late September. 75 cents each.
- Algonquin**—Very large clear yellow in September. 18 in. tall. One of the best yellows. 40 cents each.
- Autumn Lights**—Large semi-double bronze-red flowers in September. 18 in. 40 cents each.
- Bronze Buttercup**—(English)—Very large incurved double bronze flowers. Mid-season. Very free. A choice variety. 75 cents each.
- Dean Kay**—Rose pink double flowers. September. Very free bloomer. 50 cents each.
- Dean Ladd**—Reddish-bronze double flowers. Free blooming in September. 50 cents each.
- Early Bronze**—Fully double bronze yellow flowers in September, medium height and very free.
- Eugene A. Wander**—Very large double deep yellow on strong stems. Late September. 50 cents each.

Goblin—Double golden bronze flowers on 2 ft. stems, fine Autumn color. Sometimes called the "Halloween" Chrysanthemum. Good cut flower. 40 cents each.

Lavender Lady—Soft lavender double blossoms, 2½ ft. Early October. 40 cents each.

Mrs. Pierre S. duPont III—Peach-pink, shaded mauve. Large perfectly double flowers. 2½ ft. Early October. 50 cents each.

Polar Ice—(University of Minn.)—Flower very large, clear blue-white. A choice white variety—blooming early. 50 cents each.

Pygmy Gold—Intensely golden yellow flowers of rather small size, but produced in abundance throughout the season. A Korean Hybrid beginning to bloom early in September. 40 cents each.

Reveler (English)—Crimson. Exceedingly large double flowers. Rare. 75 cents each.

Rose Princess (English)—Large double salmon rose flowers on long stiff stems. Late October. 75 cents each.

September Bronze—Large button flowers of golden bronze in late September. Strong grower and free bloomer. 18 in. 40 cents each.

September Cloud—Habit like preceding. Ivory-white with light yellow center. 40 cents each.

CUSHION CHRYSANTHEMUMS—

Bronze Cushion—Opens a pretty bronze and ages to pale coppery yellow. 40 cents each.

Golden Cushion—An excellent golden yellow. 40 cents each.

Red Cushion Improved—An early flowering variety. 40 cents each.

Pink Cushion—The well known Amelia and still one of the best. 40 cents each.

Queen Cushion—A good white cushion Chrysanthemum. 40 cents each.

Cimifuga Racemosa—(Bugbane)—A pretty native shade loving plant having long spikes of pure white flowers in July and August. 6 ft. 35 cents each.

Clematis Davidiana—Sky-blue bell shaped flowers. Sweet fragrance. Aug. 3 ft. 50 cents each.

Clematis Mandschurica—White fragrant flowers on 3-ft. spikes, good cut flower. New. 50 cents each.

***Corydalis Lutea**—Yellow flowers on 10 in. stems are produced all summer. Prefers some shade. 50 cents each.

Delphinium (Hardy Larkspur)—Tall stately plants, bearing long spikes of flowers mostly in shades of blue. Will succeed in any rich soil, and like a little lime. Good for forcing.

Belladonna—A free and continuous bloomer. Very popular cut flower and forces well. Azure blue. 3 ft. 40 cents each.

Bellamosum—A deep blue form similar to the above. 40 cents each.

***Chinensis**—Intense gentian blue. Large flowers. Dwarf. 18 in. July to October. 40 cents each.

Pacific Giants (V&R)—Considered the finest strain yet produced. The flowers are nearly all double and extremely large. Spikes average 5 ft. tall. Mixed. 40 cents each.

Pacific Giants—Guinevere—Beautiful light lavender pink with white bee. Immense florets. 50 cents each.

Pacific Giants—King Arthur—Very attractive with large double violet florets. 50 cents each.

Pacific Giants—Sir Galahad—Double clear white flowers, often more than 3 in. in diameter. 50 cents each.

Pacific Giants—Summer Skies—In this variety the large double florets are a clear light blue. 50 cents each.

Wrexham Hybrids (Hollyhock)—A wonderful strain recently introduced from England. Stems and flowers are very large in a wide range of colors. Both single and double. 4 to 6 ft. True stock. 40 cents each.

***Dianthus (Pinks)**—A popular race of hardy plants producing fragrant flowers in bright colors. Includes many gems for the rockery. Dry soil in sun suits most of them.

***Alpinus**—Not to be confused with Alwoodi Alpinus, which is quite different. Foliage is glossy deep green. Flowers deep rose with dark ring around the center. June and often again later. Flowers are huge on 4 in. stems. Gritty limestone soil. 60 cents each.

***Arenarius (Sand Pink)**—Very deeply fringed fragrant white flowers in July and August. 6 in. Sandy soil in full sun. 40 cents each.

Barbatus (Sweet William)—These popular plants produce freely clusters of fragrant flowers in a wide range of vivid colors. Excellent for cutting. 15 in. 30 cents each.

Beatrice—A hybrid variety, pure pink, double flowers in clusters. June to September. 10 in. 50 cents each.

Caryophyllus (Hardy Carnation)—We mention below the best all around varieties that are truly hardy, and closely resemble the greenhouse carnations. They are free and continuous bloomers. Large double flowers on good stems which can be improved by picking off the side buds as soon as large enough. Seed grown plants not quite 100 per cent true. The following are 40 cents each.

Grenadin Scarlet—Large bright scarlet.

Grenadin White—A fine large pure white variety.

Crimson Bedder—Another hybrid having deep red double flowers nearly all summer. 50 cents each.

***Deltoides Major Sterns**—A variety of *Deltoides* having deep crimson flowers and dark foliage tinted bronze. 40 cents each.

***Neglectus**—A beautiful form. Tufts of grasslike foliage. Flowers deep pink with buff reverse. Well drained garden soil. Long blooming season from May on. 6 in. 50 cents each.

***Plumarius (Hardy Garden Pinks)**—Pretty grey green foliage and intensely fragrant flowers on long stems. Grown from the best seed obtainable, but do not come quite 100 per cent double. Mixed colors. 30 cents each.

***Sammy**—Our own introduction. Recently found among a batch of seedlings. It forms a nice blue grey cushion covered with perfectly formed double pink flowers in June. Delightfully fragrant. Easy grower about 5 in. tall. 50 cents each.

Silver Mine—Similar to *Beatrice* in all respects except that it is pure white. 50 cents each.

***Dicentra Eximia (Plumy Bleeding Heart)**—Handsome finely cut foliage and racemes of rose pink flowers throughout the summer. Will grow in sun or shade. The excellent foliage of this plant makes it attractive at all times. 12 in. 50 cents each.

***Dicentra Spectabilis (Bleeding Heart) (Seal Flower)**—Rose crimson heart-shaped flowers in May. An old-fashioned favorite, justly popular. 2 ft. 60 cents each.

Digitalis (Foxglove)—Giant Shirley—Mixed colors, from white and pink to rose-purple. Larger and more permanent than other varieties. 5 ft. 30 cents each.

***Dodecatheon Medea (American Cyclamen) (Old Maid's Noses) (Shooting Star)**—A pretty smooth native perennial with white flowers in early spring and summer. 10 in. 30 cents each.

***Doronicum Clusi**—A dwarf form, producing large bright yellow flowers in early spring and summer. 15 in. 50 cents each.

***Draba (Whitlow Grass)**—A large family of small plants easily grown in rockery or wall. Give them well-drained soil in sun.

***Bertolini**—A dense evergreen mossy cushion producing a mass of golden yellow flowers very early in spring. Rare. 50 cents each.

***Olympica**—Bright yellow. May. Mossy foliage. 4 in. 40 cents each.

***Epimedium Alpinum Rubrum (Bishops Hats)**—Bright red flowers with white centers, bronze overgreen foliage. Well drained soil in part shade, 6 in. 50 cents each.

***Epimedium Sulphureum**—Similar to the above, but taller and flowers pale yellow. 50 cents each.

Erigeron Speciosus (Fleabane)—Large blue Daisies in June and July. Good cut flower. 2 ft. 40 cents each.

- ***Erodium Chamaedroides Roseum**—Pretty pink flowers are produced all summer. These set close to an inch high cushion of attractive foliage. Light soil and lime. 50 cents each.
- Eulalia Gracelima**—An ornamental grass having long narrow blades and attractive plumes in autumn. 8 ft. 30 cents each.
- Eulalia Zebrina**—(Zebra Grass)—In this, broad white stripes cross the long blades. 6 ft. 30 cents each.
- Eupatorium Coelestinum (Hardy Ageratum)**—Light purple ageratum-like flowers in late summer and fall. Excellent for cutting. 18 in. Ordinary soil. 35 cents each.
- Euphorbia Corollatra (Flowering Spurge) (Milkwort)**—Large umbels of small white flowers with green eye in summer. Good cut flower, as a substitute for Gypsophila. 18 in. Ordinary soil. 35 cents each.
- ***Euphorbia Polychroma**—Large attractive yellow flower bracts. Makes a beautiful formal clump 1 ft. high. May. 50 cents each.
- ***Festuca Glauca**—(Blue Fescue Grass)—A dwarf tufted grass having silvery gray blades. A choice edging plant. 40 cents each.
- ***Funkia Lancifolia**—Broad green leaves, bluish mauve flowers. August and Sept. 15 in. 40 cents each.
- ***Funkia Minor Alba**—Masses of small white flowers on 12 in. stems. Best in moist soil. 50 cents each.
- ***Funkia Subcordata Grandiflora (Plantian Daylily) (August Lily)**—Attractive pale green leaves. Very sweet white flowers in August. 1½ ft. 50 cents each.
- ***Funkia Undulata Variegata**—Green leaves striped creamy white, light blue flowers. A most attractive border plant. Makes a beautiful edging for beds or borders. 40 cents each.
- Gaillardia Grandiflora (Blanket Flower)**—Grey green foliage and large daisy-like flowers all summer. Yellow with a crimson ring around the center. Rich dry soil. 18 in. One of the most useful perennials for cutting. 35 cents each.
- ***Gentiana Acaulis (Gentianella)**—An alpine variety of great beauty, forms a dwarf bright green carpet, completely covered with large bright gentian blue flowers in spring. Requires moisture and good drainage. 4 in. Lime. \$1.00 each.
- ***Gentiana Andrewsii (closed, or Blind Gentian) (Bottle Gentian)**—Bright blue flowers in clusters or heads. These never open, hence the common name Closed Gentian. Easily grown in a moist situation. 12 in. August to Sept. 35 cents each.
- ***Geranium Lancastriense**—A dwarf form of Sanguineum that forms prostrate cut-leaved tufts and produces large pink flowers in abundance all summer. 4 in. 75 cents each.
- Geum Fire Opal**—A new variety that seems to be quite hardy here. Fiery orange scarlet double flowers on 18 in. stems. Early summer. 50 cents each.
- Geum Coccineum, Mrs. Bradshaw**—Brilliant fiery-red double flowers on two-foot stems. Well drained soil. 40 cents each.
- ***Geum Heldreichii**—A small compact very attractive plant. The bright orange flowers set close to the foliage and are produced almost continuously all summer. Easy grower in light limy soil. 75 cents each.
- Geum Princess Juliana**—Large semi-double flowers on 18 in. stems. Tawny yellow, shaded apricot. An excellent new variety, early summer. 50 cents each.
- ***Globularia Nana**—Makes an attractive bright green cushion studded with lavender blue buttons in June. 1 in. Easy here in well drained gritty soil. 75 cents each.

GRASSES—See *Eulalia* and *Festuca*.

Gypsophila (Babies Breath) (Chalk Plant)—All require dry soil and like lime.

Bristol Fairy—A new double variety of *Paniculata*, producing larger individual flowers and panicles than the older double varieties. White flowers giving the plant a handsome lacy appearance. Excellent for drying. 2½ ft. Grafted plants. 60 cents each.

Paniculata Compacta—Large panicles of small white flowers in a globular mass 2½ ft. through. Much used in floral work for its lacy effect. 30 cents each.

***Repens Rosea**—A beautiful deep pink form of *repens*. 40 cents each.

***Helianthemum (Sun or Rock Rose)**—Dwarf spreading evergreen shrubs, covered with bloom from June to September. A dry sunny place. We offer the following:

***Mutable**—Semi double and single flowers in a wide range of color. Resembles small roses. 35 cents each.

Heliopsis Scabra Incomparabilis—Rich golden yellow double flowers on 2½ ft. stems. Blooms continuously from July on. A new plant of rare merit. 40 cents each.

***Helleborus Niger (Christmas Rose)**—Large white flowers flushed purple on outside of petals. Glossy evergreen foliage. November to March. Very hardy. 12 in. Rich soil in shade. \$1.00 each.

Hemerocalis Aurantaica—Orange yellow. June. 2 ft. 40 cents each.

Hemerocalis Hyperion—The large lemon yellow flowers are abundantly produced on strong 3 ft. stems. Very fragrant. Blooms in July. Very desirable. 60 cents each.

Hemerocalis Kwanso—A double flowering orange-colored variety. July. 40 cents each.

Hemerocalis, Mrs. W. H. Wyman—Pale lemon yellow. Very late, August blooms freely on 4 ft. stems. 40 cents each.

***Heuchera (Coral Bells) (Alum Root)**—Tufts of geranium-like foliage, tall sprays of bell-shaped flowers nearly all summer. Ordinary soil.

***Brizoides**—Pale rose pink flowers, a strong grower and free bloomer. 18 in. 40 cents each.

***Brizoides Alba**—A creamy white flowering form of the above. 50 cents each.

***Pluie de Feu (Rain of Fire)**—A well named variety having bright scarlet bells on 12 in. stems. 50 cents each.

Hollyhocks Double (Althea Rosea)—Well known. Large double flowers in stately 6 ft. spikes over a long season. Separate colors—Maroon, Newport Pink, Scarlet, White or Yellow. 35 cents each.

***Iberis Sempervirens (Hardy Candytuft)**—A dwarf evergreen shrubby plant, covered with white flowers. 6 in. May. 40 cents each.

***Inula Ensifolia**—A beautiful dwarf plant having narrow dark green foliage covered with yellow daisies in July and August. 6 in. 40 cents each.

IRIS PUMILLA

These resemble the *Germanicas*. They are very dwarf, not over 10 in. tall, and bloom in April and May before the tall varieties.

***Atroviolacea**—Large violet flowers. 30 cents each.

***Bride**—Very large white. 30 cents each.

***Fairy**—Beautiful pale blue. 40 cents each.

***Orange Queen**—The best bright yellow. 30 cents each.

IRIS GERMAN

We offer below a few, only of the very best varieties to date. These are excellent for any purpose. May be planted at any time when the ground is not frozen. All are fragrant.

Black Wings—An outstanding variety. Very dark violet. Large blossoms on 40 in. stems. 40 cents each.

Frieda Mohr—A huge flower of perfect form. Deep pink. Another prize winner. 35 cents each.

- Gudrun**—Creamy white, a huge flower. A popular white variety. 50 cents each.
- Her Majesty**—Rose-pink, standards lighter. A good pink Iris. 40 cents each.
- Indian Chief**—F. Rich velvety red. S. Lighter red. 36 in. Extra fine. 35 cents each.
- King Midas**—Golden buff and brown shades, unusual coloring. 40 cents each.
- Nene**—Lilac and old rose. The giant of the race. 40 cents each.
- Ormohr**—Lilac overcast white and veined violet. Very large flowers. A prize winner. \$1.00 each.
- Pallida Dalmatica (Syn. Princess Beatrice)**—An old standby. Tall broad foliage and large flowers of lavender blue. 30 cents each.
- Pallida Variegata**—One of the most striking variegated plants. Like Iris Pallida Dalmatica in all respects except that the green sword-like foliage is striped creamy white. 40 cents each.
- Pluie d'Or (Rain of Gold)**—A clear bright golden yellow. Tall grower and free bloomer. 30 cents each.
- Seminole**—The best red self at a popular price. 30 cents each.
- Spokan**—Bright brown-red. Flowers of good size on 3 ft. stems. 40 cents each.

IRIS KAEMPFERI (Japanese Iris)

These are magnificent, and where they succeed, surpass everything. They require well-enriched soil and plenty of moisture during early summer but standing water should be avoided. The flowers are very large and their delicate colorings are hard to describe. They bloom in July after the German Iris. The varieties listed below represent the best selection from a large collection.

- Gekka-no-nami**—Glistening white, very early and free. Double. 40 cents each.
- Iso-no-nami**—A new soft blue variety. Very good. Six petals. 40 cents each.
- Koki-no-iro**—Rich violet purple, white petioloids tipped violet. Large blossoms, early and free bloomer. Double. 40 cents each.
- Mahogany**—Purplish red. Late. Extra large. Double. 40 cents each.
- Seacrest**—Six large crepe petals, white shaded blue. One of the most beautiful. 40 cents each.

IRIS SPECIES.

- *Iris Arenaria (Sand Iris)**—A rare and choice variety. Plant very small with large bright yellow flowers, in spring. 3 in. 40 cents each.
- *Iris Chrysographes**—Dark blue flowers penciled gold. Free flowering on 15 in. stems. June. A rare and beautiful plant. 50 cents each.
- *Iris Cristata**—A native creeping variety. Crested flowers, rich amethyst blue. 3 in. May. 35 cents each.
- *Iris Cristata Alba**—A beautiful white variety of the above. 50 cents each.
- Iris Siberian, Orientalis, Blue King**—Large clear blue flowers produced in profusion. Likes a moist place. 3 ft. May and June. 30 cents each.
- Iris Siberian, Orientalis, Snow Queen**—Similar to the above with snow-white flowers. 30 cents each.
- *Iris Tectorum**—This is the roof Iris of Japan, where it is grown on the thatched roofs. A beautiful variety, crested blue flowers. 12 in. Well-drained soil. May and June. 40 cents each.

Lavendula Vera (Sweet Lavender)—The true old-fashioned variety, aromatic foliage and fragrant blue flowers. 1½ ft. July and August. Well-drained soil. Protect in cold climate. 40 cents each.

Liatris Pysnotachya (Blazing Star or Kansas Gay Feather)—Grass-like foliage and tall spikes of rich purple flowers. Unusual and attractive. Excellent for cut flowers. 5 ft. August and September. Ordinary soil. Should not be planted deep. 30 cents each.

Liatris September Glory—A variety of *Liatris Scariosa* blooming in September. The purple flowers open at one time on tall spikes. Excellent cut flower. 40 cents each.

LILIES — HARDY GARDEN VARIETIES

No garden is complete without its lilies. Those listed below are some of the hardiest and most easily grown. By following a few cultural hints they should be successfully grown in any garden. Many are easily forced and good for cutting.

Candidum (Madonna or St. Josephs Lily) (Ascension Lily)—This popular garden variety has many common names. Large fragrant pure white trumpet-shaped flowers in July. Best planted 4 in. deep in fall and left undisturbed. 3 ft. 60 cents each.

Elegans—Orange red, although color is variable. Flowers are upright, cup shaped and appear in June. Plant 5 in. deep. 40 cents each.

Pardalinum Giganteum (Sunset Lily)—Flowers bright red shading to yellow at the base, spotted brown. Plant 6 in. deep. A choice variety easy to grow. Large bulbs. 60 cents each.

Regale (The Regal Lily)—A wonderful lily of easy culture in well-drained soil. Large white trumpet-shaped blossoms, shaded pink on the outside and lined with gold. Has a very sweet penetrating odor. Sometimes grows 6 ft. high with a dozen buds on a stalk. Plant 5 in. deep. Large bulbs. 40 cents each.

Superbum (American Turks Cap Lily)—A hardy native lily of easy culture, enjoys moist soil. Bright orange with dark spots. July. Plant 5 in. deep. 40 cents each.

***Tenuifolium (Coral Lily)**—Grows only 12 to 18 ins. high. Pretty recurved bright scarlet flowers in June. Good in the Rock Garden, also for cutting. 2 yr. bulbs. 30 cents each.

Tigrinum Fl. Pl.—A very interesting double form of the Tiger Lily. 50 cents each.

***Lily of the Valley (Convallaria Majalis)**—A well known plant having fragrant white bells in sprays. Rich soil in shade. Clumps 50 cents each.

***Linum Alpinum**—A dwarf Flax having spreading stems with small green leaves and large blue flowers. All summer, 6 in. Ordinary soil. 40 cents each.

***Linum Flavum (Campanulatum)**—A choice variety producing transparent yellow flowers in clusters from June to August. 9 in. 40 cents each.

Linum Perenne—Delicate pale blue flowers on slender stems. These last only a day but are abundantly produced in succession. 2 ft. 35 cents each.

Lobelia Cardinalis (Cardinal Flower) (Indian Paint Brush)—A native swamp plant that succeeds in rich moist garden soil. Tall spikes of most brilliant scarlet. 4 ft. August. 40 cents each.

Lupinus Polyphyllus—Tall spikes of pea-shaped blossoms, blue, white, rose, separate. Rich, moist soil. 3 ft. 35 cents each.

Lupines Russel Hybrids—A reselected strain of this popular mixture. A wide range of color in varying combination. 45 cents each.

Lychnis (Campion) (Catchfly)—

Chalcedonica (Maltese Cross) (Jerusalem Cross) (Scarlet Lightning)—Bright scarlet in heads, 2 to 3 ft. June to August. 35 cents each.

***Viscaria Flore Plena**—Brilliant red. An attractive double variety. Good for cutting. June and July. 10 in. 40 cents each.

***Mertensia Virginica (Virginia Blue Bells) (Virginia Cowslip)**—A native plant, brilliant blue flowers in early spring. Foliage dies down after blooming season. Likes a shady place. 1 ft. 30 cents each.

Monarda Didyma (Bergamot) (Bee Balm) (Cambridge Scarlet) (Horse Mint) (Oswego Tea)—Aromatic foliage, brilliant scarlet flowers in July and August. 3 ft. 40 cents each.

***Myosotis Palustris Semperflorens True Forget-Me-Not**—Bright blue flowers with yellow eyes. A free and continuous bloomer. Prefers moist soil. 35 cents each.

***Nepeta Mussini (Ground Ivy)**—A dwarf compact plant, producing a mass of lavender blue flowers all summer. 1 ft. Aromatic grey foliage, hot dry place. 35 cents each.

Oenothera (Evening Primrose) (Sundrops)—Well drained soil in sun.

***Missouriensis (Syn. Macrocarpa)**—A dwarf plant producing large yellow blossoms, too large for the plant all summer. 40 cents each.

Youngi—Large glossy leaves. The lemon yellow flowers are produced all summer. 2 ft. 40 cents each.

***Omphalodes (Venus Navelwort) (Blue Eyed Mary)**—Beautiful dwarf creeping plants related to the Forget-Me-Nots. They require light shade and well drained loamy or peaty soil. Real gems for the rock garden.

***Verna (Creeping Forget-Me-Not)**—A dwarf spreading plant, large cordate foliage. Azure blue flowers in April. 50 cents each.

***Verna Alba**—A beautiful white form of the above. 60 cents each.

Pachysandra Terminals (Japan Spurge)—An evergreen ground cover having rich glossy green foliage. Excellent under evergreen trees or dense shade, also in sunny borders. Plant 3 inches apart. 25 cents each; 100 for \$20.00.

Papaver—No garden is complete without the delicate and brilliant colored hardy poppies. The Iceland poppies are also excellent for the rockery and bloom continuously except during the hot dry weather.

***Alpinum**—A beautiful Alpine form, not as large as the Iceland poppy but more permanent. Well drained soil. 50 cents each.

***Nudicaule (Iceland Poppy)**—A tufted plant having finely divided leaves. Blossoms are produced freely and continuously on naked stems. Orange, pink, white or yellow separate. 40 cents each.

Oriental (Oriental Poppy)—Among the showiest and most popular of hardy plants, blossoming in May on 3 ft. stems. Best planted in fall as spring planting is seldom successful. If cut in early morning as the buds are ready to open they keep well in water. The following are a few very choice named varieties:

Beauty of Livermore—Very dark crimson. Extra fine. 50 cents each.

Betty Ann—LaFrance pink, large crimped flower. 50 cents each.

Curtis Giant Flesh Pink—Flesh pink tinted lavender. Often over 9 in. in diameter on 3 ft. stems. New. 75 cents each.

Henry Cayeux Improved—Ashes of roses approaching lavender, very large flowers. 50 cents each.

Indian Chief—An improved Mahogany. A strong grower and free bloomer. The best very dark variety. New. 75 cents each.

Mrs. Perry—Beautiful salmon pink. 50 cents each.

Olympia—Flame scarlet shaded salmon. This has double flowers and blossoms before any other. 40 cents each.

Orientele—Large, brilliant orange scarlet blossoms. The usual type. 40 cents each.

Pentstemon Barbatus Torreyi (Beard Tongue) — Spikes of bright scarlet flowers. Very attractive in the hardy border. June to Sept. 3 ft. 35 cents each.

Pentstemon Garnet — Large garnet colored flowers on 12 to 18 inch stems. Blossoms continuously through summer and Fall. Keeps well cut. 50 cents each.

PHLOX SPECIES

***Bifida**—A creeping variety producing bright blue star shaped flowers in early spring. Rare. 35 cents each.

***Divaricata Canadensis (Blue Phlox)**—Large fragrant lavender flowers, very early in spring. Very desirable. 10 in. 30 cents each.

***Subulata (Moss Pink) (Mountain Pink)**—Attractive moss like evergreen foliage, forms a thick mat completely covered with bright colored flowers in early spring. 6 in. A hot dry place. The following are quite satisfactory:

***Subulata Alba**—A pure white variety. 40 cents each.

***Subulata Apple Blossom**—A compact slowly spreading plant studded with delicate pink blossoms. 50 cents each.

***Subulata Atropurpurea**—A compact growing variety with crimson-red flowers. 35 cents each.

***Subulata Blue Hills**—Another compact growing plant that produces blue flowers shaded lavender in abundance. 40 cents each.

***Subulata Camla**—Recently introduced from England. Produces large salmon-pink flowers all summer. 50 cents each.

***Subulata Samson**—A new variety that we can heartily recommend. Flowers are large deep rose and the plants usually produce a full crop of flowers in early fall. 50 cents each.

***Subulata Vivid**—Bright pink with a fiery red eye. Not as strong growing as rosea but extremely free flowering. 50 cents each.

PHLOX DECUSSATA (Hardy Phlox)

These are well known and justly popular border plants. Very showy with their panicles of brilliant colored flowers in late summer, remaining in bloom for a long time. The varieties listed below, represent a wide range of color and will prove satisfactory. Prefer rich well drained soil, and should be divided every 3rd year. Except as noted. 40 cents each.

Africa—Deep carmine red with deeper red eyes. A fine new variety, very large trusses.

Caroline Van Den Berg—Lavender blue without magenta.

Colonial—Light blue, large panicles. A strong grower.

Count Zeppelin—(Graf Zeppelin)—Pure white flowers with a conspicuous red eye. Very large flowerets. The best "Calico."

Daily Sketch—Very large salmon-pink florets with crimson eye, in large panicles. An outstanding novelty.

Geo. Stipp—Deep salmon shaded lighter at center. A good salmon-pink Phlox of recent introduction. 50 cents each.

Leo Schlageter—Orange scarlet florets in very large trusses, very popular. 50 cents each.

Lillian—Beautiful pure pink without magenta. Good panicles of large florets. Healthy growth. New. 50 cents each.

Mary Louise—Pure white in large panicles, extra large individual florets. Good grower and a free bloomer. New. 50 cents each.

- Miss Lingard**—Very early, belonging to the suffruticosa type. Has attractive glossy green foliage and a long flowering period. One of the best for cutting. White with faint pink eye. 50 cents each.
- Mrs. Jenkins**—A very satisfactory pure white variety. Very free. Medium height.
- P. D. Williams**—Soft rose-pink with darker eye. Huge florets in large heads. Considered best in its color. 50 cents each.
- Phineland**—A beautiful salmon pink with deeper eye. Medium height.
- Salmon Beauty**—Resembles Elizabeth Campbell but is a strong healthy grower. Large Salmon pink flower with white eye. A splendid variety. 50 cents each.
- *Physotegia Virginica Vivid**—Dwarf form suitable for the rock garden. 15 in. Deep rose pink, later than Virginica and continues in bloom through November. 35 cents each.
- *Platycodon Mariesi**—(**Balloon Flower**)—Deep violet blue, flowers over a long period. Buds formed like inflated balloons. Dry soil in sun. 12 in. 40 cents each.
- *Plumbago Larpentae (Leadwort)**—A dwarf spreading plant, attractive green foliage, shaded bronze, deep blue flowers in fall. 6 in. Well drained rich soil. Late to appear above ground in spring. 40 cents each.
- *Polemonium Coeruleum (Jacobs Ladder)**—Sky blue flowers on tall stems. Attractive fern-like foliage. 15 in. June and July. Ordinary soil. 35 cents each.
- Pontentilla Tongui**—A dwarf and choice variety that blooms freely and continuously all summer. Large apricot flowers with crimson centers. An excellent plant to drape over a rock. Well drained soil. 3 in. 50 cents each.
- *Primula (Hardy Primrose)**—Splendid plants for the rockery. Most of them preferring rich moist soil and a little shade.
- *Acaulis Blue**—The rare and beautiful blue Primrose. Always in demand. 6 in. 50 cents each.
- *Blaukissen**—Another Juliae hybrid. Large violet blue flowers on 4 in. stems. A pretty free flowering variety. Rare. 50 cents each.
- *Edelstein**—Very dwarf purple blue. One of the best Juliae hybrids. Rare. 50 cents each.
- *Helenae**—A Juliae hybrid, large burgundy-red flowers. Very dwarf. One of the finest dwarf primulas in commerce. 40 cents each.
- *Sieboldi**—A recently introduced species. Large flowers in clusters on 10 in. stems. Mixed colors in late spring. Deciduous, some shade. 50 cents each.
- *Veris Giant Munstead**—An excellent large flowering strain of P. Veris. 40 cents each.
- *Veris Monarch**—Many new colors in this mixture. The very large flowers are freely produced over a long period. 50 cents each.
- *Vulgaris (English Cowslip)**—Swaying clusters of yellow flowers on 6 in. stems. 40 cents each.
- *Pulmonaria Augustifolia Azurea (Lungwort)**—Lovely blue flowers very early in spring. Flowers resemble Mertensia, but is not quite so tall and foliage is rough and persistent, deep green. 50 cents each.
- *Pulmonaria Saccharata—Mrs. Moon**—Flowers salmon pink. Foliage conspicuously blotched and marked with silver. 75 cents each.
- Pyrethrum Roseum (Painted Daisy) (Persian Daisy)**—Of easy culture in any soil, flowering profusely in early summer and less freely in late summer and fall. Finely divided attractive foliage. Finest single and double mixed. 2 ft. 40 cents each.
- Rudebekia Newmanni (The Perennial Black Eyed Susan)**—Large orange yellow daisy like flowers with dark brown or purple cones all summer. 3 ft. Fine for cutting. 35 cents each.
- Rudbeckia The King**—Broad deep crimson rays extend horizontally around to coppery bronze cone. 3 ft. Good cut flower. 50 cents each.
- Salvia Azurea (Blue Sage)**—Bright sky blue flowers in late summer. Profuse bloomer. 3 ft. Good border plant. Loam soil. 35 cents each.
- Salvia Pitcheri**—Similar to Azurea but color is a clear Gentician blue. 40 cents each.

Salvia Turkestanica Superba—Huge downy pale green aromatic foliage. Pink flowers and bracts in great clusters in summer. 5 ft. An outstanding border plant. 40 cents each.

***Saponaria Ocymoides**—A dwarf trailing plant making a thick mat. Pink flowers from May to July. 6 in. 35 cents each.

***Saxifragia Cordifolia**—(Megasea)—The pink flowers appear very early with the Crocus, on short stems. Pretty large deep green evergreen leaves. Choice Rock Garden plants. 50 cents each.

Scabiosa Caucasica Alba—A white flowering form. 50 cents each.

Scabiosa Isaac House Hybrids—Variable in color, blue shades prevailing. Large perfectly formed flowers are produced all summer. These come on long 18 in. stems and are fine for cutting. Any good garden soil. 40 cents each.

SEDUMS — STONECROP

Except as noted, 35 cents each.

Sedum (Stone Crop)—The dwarf varieties are excellent for hot dry positions in the rockery. Like a little lime in soil.

***Middendorffianum**—Bright yellow flowers on 8 in. stems. Narrow leaves pretty reddish brown.

***Seiboldi**—An erect growing variety, pretty rose colored flowers in immense heads in fall. Broad gray green leaves edged rosy red. 12 in. 40 cents each.

***Sieboldi Variegata**—A rare form of the preceding having yellow variegated leaves. 50 cents each.

Spectabile Brilliant—A bright red form of the Spectabile.

***Sedum Spurium Coccineum**—Deep red flowers in early Fall. 6 in. 40 cents each.

SEMPERVIVUMS — HEN-AND-CHICKENS

Most attractive hardy plants for the rock garden or rock wall. The rosette-like thick leaves are fleshy and pointed. The small clumps slowly spread, filling pockets and rock crevices. Transplanting may be done at any time of the year. After flowering the mother rosette disappears but its place is taken by numerous young plants which may be separated and planted elsewhere. The flowers are borne in small panicles on short, fleshy stems, generally during June and July. Some of the blossoms are unusually attractive, but the plants are prized for their attractive rosettes of Hen-and-Chickens which attain a height of $\frac{1}{2}$ inch to 3 inches according to variety. All are hardy and can be planted at any time, in any well drained soil.

***Atropurpureum**—Rosettes are 4-5 in. in diameter. Retains its deep color. 50 cents each.

***Calcarium**—Rosettes 4 inches across of bluish leaves having a broad brown section at the tip. Very striking. A choice variety. 40 cents each.

***Laggeri**—Very near to Arachnoideum, larger rosettes. 40 cents each.

***Rosy Purple Beauty**—8 in. rosettes of large deep purple leaves. Color is maintained throughout the year. 50 cents each.

***Rubicundum Hybridum**—A very attractive variety, rosettes 3 to 4 inches in diameter. From base of leaf to outer third deep red while tip and margins are bright green. 50 cents each.

***Statice Latifolia (Great Sea Lavender)**—Large finely divided heads of pretty lavender blue flowers which are very small and retain their beauty for a long time when cut and dried. Forms attractive rosettes of leathery green leaves. 15 in. July and August. 35 cents each.

***Stokesia Cyanea (Stokes Astor) (Cornflower Aster)**—Very large lavender blue centaurea-like blossoms all Summer. 18 in. Good moist soil. 35 cents each.

***Thalictrum Aquilegifolium**—Fluffy heads of purple flowers in May and June. Excellent border or cut flower plant. 3 ft. 40 cents each.

- Thalictrum Glaucum**—Chinese yellow fragrant flowers, finely cut blue-gray foliage. 40 cents each.
- Thilictrum Rochebrunianum**—Light purple flowers in loose bunches. Foliage resembles that of Maiden Hair Fern. 5 ft. Best in part shade. 75 cents each.
- Thermopsis Carolina**—(Yellow Lupine)—Yellow Lupine flowers in June and July. 2 ft. 40 cents each.
- *Thymus Serpyllum Album (White Thyme)**—Makes a white mat. Poor soil in sun. June and July. 40 cents each.
- *Thymus Serpyllum Coccineum (Crimson Thyme)**—A red flowering form of the above. 40 cents each.
- Tradescantia Virginica**—(Spiderwort)—Blue flowers all summer. These are of short duration but come in rapid succession. 2 ft. Moist soil, does well in shade. 35 cents each.
- Tritoma Pfitzeri (Red Hot Poker)**—(Torch Lily) (Flame Flower)—Small tubular orange-scarlet flowers thickly set on tall naked stems. Blooms from August to frost. 2½ ft. Requires winter protection and should be planted in Spring only. 40 cents each.
- Trollius Europeus Orange Globe**—Bright orange yellow flowers. Flowers resemble large semi-double Buttercups. Free flowering May to August. 18 in., moist soil and shade. 50 cents each.
- Trollius Ledebourii Golden Queen**—A variety of Ledebourii, having larger flowers and blooming more freely. 50 cents each.
- *Tunica Saxifraga Rosea fl. pl. (Double Coat Flower)**—A real gem for the border or Rockery that blooms freely and continuously from Spring to freezing weather. Double pink flowers. 6 in. Well drained soil in sun. 50 cents each.
- Valeriana Officinalis (Hardy Garden Heliotrope)** — White tinted rose in heads on straight stems. Strong delicious heliotrope fragrance. 3½ ft. Any good soil. 35 cents each.
- Veronica (Speedwell)**—This genus provides many choice varieties for the hardy border or Rockery. The following are all easy to grow in ordinary soil provided with good drainage.
- *Armena**—A dwarf mat forming species. Narrow bright green leaves, and freely producing blue flowers in early spring. Rare. 40 cents each.
- *Incana**—Deep blue flowers in spikes. Foliage silvery white. 12 in. July and August. A very interesting and attractive plant. 40 cents each.
- Incana Rosea**—A very attractive perennial plant. Foliage and habit like the above, but taller. 18 in. Flowers a deep rose pink. 50 cents each.
- Longifolia Subsessilis (Bluebird Flower)**—Spikes of small flowers of a beautiful shade of blue. 2 ft. July to September. A most attractive plant. Good for cutting. 50 cents each.
- Spicata**—An upright growing plant, flowers blue in tall spikes. Blossoms over a long period in summer. 2 ft. 30 cents each.
- *Spicata Nana**—A pretty, very dwarf form of Spicata. 6 in. 50 cents each.
- *Viola Cornuta (Tufted Pansies)**—If kept from ripening seeds, these plants will bloom continuously all summer. Prefer a little shade and rich soil.
- *Viola Cornuta Blue Perfection**—The best light blue variety. 30 cents each.
- *Viola Cornuta Chantryland**—A more recent introduction. Large golden apricot. 30 cents each.
- *Viola Cornuta Jersey Gem**—Pure rich violet. A very free and continuous bloomer. Endures more sun than some. 40 cents each.
- Viola Cornuta, White Perfection**—Pure white. 30 cents each.
- Viola Cornuta, Yellow Perfection**—A good clear yellow variety. 30 cents each.
- *Viola Odorata (Sweet Violets)**—The following are hardy in most sections. The fragrant flowers appear in early spring.
- *Viola Odorata Double Russian**—Produces double fragrant flowers very freely. The hardest double variety. 40 cents each.

- *Viola Odorata Rosina**—A new hardy pink violet that is intensely fragrant. Color pink and old rose, free and continuous bloomer. Any good soil and light shade. 50 cents each.
- *Viola Odorata Royal Robe**—Deep violet blue. Blossoms open flat on very long stems. Extra good for cutting. 40 cents each.
- *Viola Pedata Bicolor (Bird Foot Violet)**—The two upper petals are violet and the lower are lavender white. A most attractive flower. Acid soil. May and later. 4 in. 35 cents each.
- Yucca Filamentosa (Adams Needle) (Spanish Bayonette)**—A very striking and imposing plant. Creamy white, bell shaped flowers on tall stems in late summer. 50 cents each.

CLIMBING PLANTS AND VINES

The following vines and shrubs are sent by express, carriage charges collect.

- Ampelopsis Veitchi (Boston or Japan Ivy)**—A popular vine for covering stone or brick walls to which it clings without support. Beautiful autumn colors. 80 cents each.
- Euonymus Radicans Vegetus (Evergreen Bittersweet)**—A still larger growing variety with larger glossy green leaves. Makes a most beautiful hardy vine for covering walls. Has pretty orange berries in fall which remain on the plant nearly all winter. \$2.00 each.

PEONIES

We offer below a few choice highly rated varieties at moderate prices. Place orders early and plant in Fall only.

- Auguste Dessert**—Rose-red, distinctly edged silver, brilliant coloring. Very free, mid-season. \$1.25 each.
- Couronne d'Or**—White, outer petals bordered carmine, golden stamens show through the flower. Large full flower. Late. \$1.00 each.
- Felix Crouse**—Brilliant red. Fragrant. Typical bomb shape. A popular red variety. \$1.00 each.
- Festiva Maxima**—White with crimson flecks in center. Large and full. Strong grower. Early. \$1.00 each.
- Karl Rosenfield**—Red. Very large globular flower. A free-flowering, vigorous tall grower. An excellent early red Peony. \$1.00 each.
- Le Cygne**—Creamy-white with an inconspicuous green center. Very choice. The highest rated Peony. Fragrant. \$2.50 each.
- Longfellow**—Bright crimson. Does not fade, a choice landscape or exhibition variety. Early mid-season. \$1.25 each.
- Mme. DeVernville**—White, tinted pink and flecked carmine. A beautiful flower and reliable bloomer. Early. \$1.00 each.
- Mons. Jules Elie**—Pure pink, broad guard petals surround the lighter pink center petals. Very large and handsome. \$1.00 each.
- Mons. Martin Cahuzac**—Deep purple garnet. The nearest black of any Peony we know. Medium sized flowers are freely produced. Mid-season. \$2.00.
- Philippe Rivoire**—Bright crimson, large full flowers of a rich red color. Sweetly fragrant. Late midseason, considered the finest red Peony. \$2.50 each.
- Therese**—Violet rose changing to lilac white. The very large flowers are freely produced, midseason, one of the very best. \$2.00 each.
- NOTE**—If you need varieties of plants, not listed herein, ask us for them. We have many items growing in our nursery that have been omitted for lack of space.
- Native Wild Flowers and Ferns**—We have many of the best and more desirable kinds in the nursery and know where others can be collected. If interested in this material write and ask about it.
